

November 22, 2024

Dear Roslyn Community,

We want to provide you with an update on the ongoing communications regarding regionalization and its potential impact on our district. We have heard from many of our community members voicing concerns.

As you may know, we submitted preliminary comments, on November 5th, to the New York State Education Department (NYSED) expressing our concerns about proposed regulations related to regionalization. We have now supplemented those remarks and submitted a letter today expressing growing concerns. We believe this plan could eventually negatively impact our district, and we intend to preserve our local control over educational decisions. We will do everything necessary to protect our community and children's education including legal action.

You can read our letters to the Office of Education Policy here:

Thank you for your trust and support.

Sincerely,

Meryl Waxman Ben-Levy
Board of Education President

Allison Brown
Superintendent of Schools
