## School MH Partnership Program

The **Northwell Health School Mental Health Partnership** provides access to mental health services for children and adolescents and their families who need urgent mental health support.

The dedicated Behavioral Health Centers (BHC) are designed as an alternative treatment setting for those who need urgent or same-day intervention, but do not require the services of the emergency room.

The partnership also provides consultations to the school, care coordination for families, professional development for school staff and community education for parents to help promote overall mental health and prevention in the whole school community.
