We could save your life™

# COVID-19

## RAPID ANTIGEN & ANTIBODY TESTING POST-VACCINATION

Receive your rapid antigen and spike protein antibody test for the novel coronavirus ("SARS-CoV-2") infection known as COVID-19

### RAPID ANTIGEN COVID-19 TESTING

Rapid Antigen Testing is recommended if you are experiencing fever, cough, shortness of breath, difficulty breathing, or if you had contact with someone that has COVID-19. Testing can provide a positive or negative test result within 15 minutes.

### SPIKE PROTEIN ANTIBODY TESTING

Determine if there is a level of IgG antibodies that may provide protection after receiving vaccination.
