# Parent & Community Notifications

## FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT (FERPA)

Under the Family Educational Rights and Privacy Act (1974) (FERPA), parents/guardians of a student under 18, or eligible students age 18 or older, have a right to:

- inspect and review the student's education records within 45 days of the day the district receives a request for access. Parents or eligible students should submit to the building principal a written request that identifies the records they wish to inspect.
- request the amendment of the student's education records that the parent or eligible student believes are inaccurate or misleading.
- consent to disclosures of personally identifiable information contained in the student's education records, except to the extent that FERPA authorizes disclosure without consent (e.g., disclosure to school officials with legitimate educational interests).
- file a complaint with the U.S. Department of Education concerning alleged failures by the district to comply with the requirements of FERPA.

In addition to the rights outlined above, FERPA also provides that a school district may designate certain student information as "directory information", which is information that is generally not considered harmful or an invasion of privacy if released. Directory information includes a student's name, address, date and place of birth, dates of attendance, major course of study, degrees and awards received, award recognitions, most recent school attended, class schedule, grade level, photograph, class roster, weight and height if a member of an athletic team, and participation in officially recognized activities and sports. Further, directory information will only be made available to parent/faculty associations, representatives of the District's insurance carriers, entities providing educational, occupational, or career opportunities, or to publish in school news publications, school student newspapers, magazines, yearbooks or other student publications, daily or weekly newspapers for journalistic purposes only, athletic, musical or theatrical programs, or news releases.

The School District may disclose "directory information" without prior consent if it has given public notice to parents of students in attendance and eligible students in attendance in the School District of: the type of personally identifiable information that has been designated as directory information; the parent's or eligible student's right to refuse disclosure of certain or all designated information; and the period of time the parent or eligible student has to notify the School District in writing that he/she wishes to withhold consent for disclosure.

Requests to view or amend a student's records, or to withhold consent for disclosure of personally identifiable information, may be addressed to the building principal. Requests to withhold consent for disclosure of directory information must be submitted in writing and returned to the building principal by September 15 each school year, or in the case of new students who enter school during the school year, within 15 days of entry.

### FREEDOM OF INFORMATION LAW

The District Clerk (801-5002) is the district's records access officer who processes requests for inspection and copies of district records under NY's Freedom of Information Law.

### STUDENT PRIVACY

Under the Protection of Pupil Rights Amendment, as revised by the Every Student Succeeds Act, parents may contact the building principal to opt a child out of the following activities:

- The collection, disclosure and use of personal information gathered from students for the purpose of marketing or selling that information. This does not apply to the collection, disclosure, or use of personal information collected from students for the exclusive purpose of developing, evaluating or providing educational products or services for or to students.
- The administration of any survey revealing certain types of personal behavior or political beliefs.
- The administration of any invasive physical examination or screening that is not necessary to protect the immediate health or safety of the student or other students. This does not apply to any physical examination or screening required or permitted under state law, including those permitted without parental notification.

Parents may also request that their children not appear in photographs that are used for purposes of general publicity, either on line or in print. Contact the school principal.

### DISCLOSURE TO THE MILITARY

Pursuant to the Every Student Succeeds Act, the school district must disclose to military recruiters and institutions of higher learning, upon request, the names, addresses and telephone numbers of high school students. Parents (or students 18 years of age or older) wishing to exercise their option to withhold their consent to the release of the above information to military recruiters and/or institutions of higher learning must make such request in writing to the high school principal.

### ASBESTOS COMPLIANCE

The district's asbestos management plan, as well as reports of current or planned asbestos inspections, response actions and post-response actions, are available to parents, faculty and staff. Please contact the district's asbestos compliance officer: Thomas Szajkowski, Asst to the Supt for Administration & Special Projects (801-5450).

### PESTICIDE APPLICATION

Parents, faculty, and staff may, upon request, receive 48-hour prior written notice of certain pesticide applications. Some pesticide applications, such as when a school remains unoccupied for 72 hours following the application, are not subject to prior notification requirements. To receive prior notification of applications that are scheduled to occur in a school, or to receive complete list of applications not requiring notification, please contact Thomas Szajkowski, Asst to the Supt for Administration & Special Projects (801-5450).

# Communication Protocol

## TO WHOM SHOULD I DIRECT MY QUESTION OR SUGGESTION?

The communication protocol helps to promote direct, open and respectful interactions so that problems and concerns can be resolved quickly and effectively. Communication should begin with the staff member closest to the situation, as that person will usually have the most information. At times, additional personnel are required to resolve specific situations. Appropriate communication channels for a variety of topics are listed below. The district encourages any and all questions from parents and residents regarding school matters.
