New Apprenticeship Opportunities with CVS and IBM Available

NEW APPRENTICESHIP NEWS & OPPORTUNITIES

On January 16th at 2:45pm in Room 115, Michael Todisco will continue to discuss NEW APPRENTICESHIPS introduced by leaders in their industries CVS and IBM.

- **CVS** has the first ever approved "Pharmacy Associate" Apprenticeship Program, providing structured training to maintain a high level of skill required in the pharmacy care industry

that arms the participants with a nationally recognized, portable credential that will help them advance their career, whether or not they decide to remain with CVS Health.

- **IBM** has introduced an online platform that provides an entry point into IBM and an IT Career Path. This provides access to certificates and licenses for candidates that want to learn relevant training — this skills-first approach to talent is what they call a “New Collar” Initiative.

Don't miss this great opportunity to learn more these exciting career pathways!

See you on Tuesday, January 16th at 2:45pm in Room 115.
