Winter 2023

Dear RHS Students and Families,

As we progress through Quarter #2, on the precipice of Spring, many students find themselves beginning to think about beneficial ways to spend their summer. For many, taking a break from academics is both necessary and a great use of time. Making time to read books of interest, work, volunteer, or pursue hobbies can be most beneficial to a student's overall life experiences, health, well-being, and preparation for next school year. Some students may want to create additional structure in their summer while bolstering their resume. In collaboration with neighboring schools, we have compiled a list of several activities for students who may be searching for new opportunities. Please know that these experiences may be worthwhile but are not required or necessary for college admission.

Over the final months of the 2022-2023 school year, we encourage you to think closely about the best use of your time this summer and pursue opportunities that will truly fulfill you and help you recharge before returning in the fall.

If you have any questions, please feel free to reach out to your school counselor.

All the best,

Tanya Baptiste
