

# WELCOME TO GENERAL SCIENCE

## OVERVIEW:

This class offers students a curriculum that introduces important concepts in all 3 major science areas of physical, earth, and life science, and the human body. The curriculum takes into consideration the specific learning needs and styles of each student. There will be many hands-on science experiences, online lab experiences, and cooperative learning experiences. Each student will be prepared to sit for the Science Regents Competency Test (RCT) in June.

There are many responsibilities that each student is expected to fulfill this year in General Science. This includes lab reports, homework, tests and quizzes, an organized notebook, utilizing an agenda book, and being prepared each day to learn.
