POLICY 4850

Animals in the Schools

NEW POLICY

Policies Being Replaced	None
Reason for New Policy	Adopt policy – Required by Law

-DRAFT NEW POLICY-**ROSLYN UNION FREE SCHOOL DISTRICT****ANIMALS IN THE SCHOOLS (INSTRUCTIONAL PURPOSES)****Policy 4850**

The Board of Education recognizes that the study of living things is essential to effective instruction in the life sciences. The primary goals for scientific instruction concerning animals are to achieve an interest in and an understanding of the life processes and to demonstrate biological principles. Therefore, the Board of Education requires that any such instructional activities, investigations, and projects be well-planned and adequately supervised.

The Board of Education also recognizes that some students have a moral, medical or religious objection to dissection or otherwise harming or destroying animals. In accordance with state law, students shall have the right to opt out of dissection activities in accordance with law.

Study and Care of Live Animals

In the rare event that a live animal is used for instructional purposes, it shall be the responsibility of the Principal or his/her designee to develop a plan of care for those animals used for scientific instructional purposes housed in school in the event of an emergency school closing or in the event the animals remain in the classroom on days when school is not in session.

Dissection of Animals

Any student expressing a moral or religious objection, or who presents with a medical condition, to the performance or witnessing of the dissection of an animal, either wholly or in part, shall be provided the opportunity to undertake and complete an alternative project approved by the student's teacher; provided, however, that such objection is substantiated in writing by the student's parent or legal guardian. Some examples of alternate activities include the use of computer simulations or research. Students who perform alternative projects shall not be penalized. In the case of some elective courses, it may be necessary for a student to choose an alternative elective course in lieu of a course requiring a long-term dissection activity.

The School District will give reasonable notice to all students enrolled in a course that includes the dissection of an animal and students' parent(s)/legal guardian(s) about their rights to seek an alternate project to dissection or to enroll in an alternative elective course. Such notice shall be made available upon request at the school and distributed to parents and students enrolled in a course that includes dissection at least once at the beginning of the school year.

Instruction in the Humane Treatment of Animals

Students in elementary school must receive instruction in the humane treatment and protection of animals and the importance of the part they play in the economy of nature as well as the necessity of controlling the proliferation of animals that are subsequently abandoned and caused to suffer extreme cruelty. Such instruction shall be for a period of time as specified by the Board of Regents and may be joined with work in literature, reading, language, nature study, or ethnology.

-DRAFT REVISED POLICY-**ROSLYN UNION FREE SCHOOL DISTRICT****STUDENT ORGANIZATIONS****POLICY 5210**

Student organizations are integral part of the learning process. Each organization should be organized so as to promote a purpose worthwhile to the school community within the resource restrictions of the School District and its members.

The Board of Education encourages teachers and other staff members to become involved by offering their enthusiasm, expertise and guidance as advisors for after-school programs.

The Board of Education recognizes the educational values inherent in student participation in the extracurricular life of the school, and supports the concept of the formation of student groups or clubs for such purposes as building sound social relationships, developing interests in an academic and non-academic area, and gaining an understanding of the elements and responsibilities of good citizenship.

All student organizations are subject to the approval of the Board of Education. Each school, under the direction of the Building Principal or his/her designee, is responsible for planning the extracurricular activities program that best suits the needs of the particular school and in accordance with budgetary constraints.

The Superintendent of Schools or his/her designee, with the aid of faculty and administration, is charged with developing procedures for creating, approving and regulating student organization. Student organizations may not restrict membership on the basis of race, color, national origin, religion, disability, sexual orientation, military status, predisposing genetic characteristic, marital status, domestic violence victim status, or sex.

The Board of Education may prohibit the formation of any clubs, including fraternities or sororities, or any other secret society, whose deliberations and activities have caused or created, or are likely to cause or create, a disruption of or interference with the school program.

Reason for Revision	Update substance of policy to reflect current practice and law

-DRAFT REVISED POLICY-**ROSLYN UNION FREE SCHOOL DISTRICT****STUDENT PUBLICATIONS, PRODUCTIONS,
AND EXHIBITIONS****POLICY 5220**

Student publications, productions, and exhibitions are important elements of the instructional program/school curriculum, and contribute directly to the accomplishment of the School District and school goals. The Board of Education supports the development of student produced newspapers, magazines, and other print media, as well as video and electronic media including online publications and websites, and assemblies and public performances.

The Board of Education encourages student publications, productions and exhibitions because they offer an educational activity through which students can gain experience in such things as interviewing, reporting, creative writing, editing, photography, advertising, salesmanship, and art.

While the Board of Education recognizes freedom of speech and expression in student publications, productions and exhibitions, the school administration reserves the right to exercise control over the style and content of school-sponsored publications and productions to provide consistency with the basic educational mission of the School District.

All school-sponsored opportunities for student expression will comply with the rules set forth in this policy and in the Student Code of Conduct. All student publications, productions, and exhibitions whether appearing in print, video or electronic media, including internet publications, must be consistent with the following guidelines: Libelous statements, unfounded charges and accusations, obscenity, false statements; materials or performances advocating racial or religious prejudice, hatred, violence, the breaking of laws and school policies and/or regulations and the like; or materials or performances designed to disrupt the educational process will not be permitted.

In addition, the school-sponsored activities listed above are not considered public forums. In such cases, the Board of Education reserves the right to edit or delete such student expression which it believes is inconsistent with the School District's basic educational mission. To that end, and in keeping with the above, procedures shall be established to review student publications, productions, and exhibitions prior to their distribution and/or display.

All School Sponsored Publications, including the Extracurricular school newspaper

The advisor(s) of ALL student publications shall have the authority to monitor the content of material to be published. All student publications shall comply with the rules for responsible journalism. As noted above, libelous statements, unfounded charges and accusations, obscenity, deliberate false statements, pornography, threats of violence, statements of hatred, articles advocating racial, religious, or other forms of prejudice, the breaking of laws and/or school regulations, or materials designed to disrupt the educational process will not be permitted. In this regard, the School District may curtail speech contained in any student publication when it is

necessary to do so in order to avoid material or substantial interference with the requirements of order and discipline in the operation of the school.

The faculty advisor(s) of a school-sponsored newspaper shall have the authority to monitor the content of articles, editorials, cartoons, photographs, or other forms of print or art related material to be included in the publication giving consideration to the:

- constitutionally protected right of freedom of expression;
- avoidance of material or substantial interference with the requirements of order and discipline in the operation of the school;
- protection of persons and property; and
- need to assist students in learning appropriate ways to exercise their rights.

Expressions of personal opinion, in the form of "letters to the editor" must be clearly identified as such and bear the name of the author. Opportunity for the publication of such letters, or a representative sampling of such letters, expressing opinions differing from those of the student publishers shall be provided to school community members.

Advertising

Advertising shall be permitted in student publications provided that it meets the following standards:

1. Advertising may not violate any of the standards set above (i.e. may not be libelous, may not advocate any form of prejudice, may not violate the breaking of laws or regulations, etc.).
2. In addition to the above standard, advertising must not be connected to the participation in sexual, drug-related or harmful behaviors.
3. Decisions regarding the acceptance of advertising must not grant preferential treatment to any viewpoint, be it political, religious, or other.
4. If by accepting the advertisement of one group or viewpoint a student publication may be required to accept the advertisement of another group or viewpoint which may contradict the above policies or the school's educational mission, the original advertisement may be rejected.

Violation of Policy

Students who violate this policy are subject to appropriate disciplinary action in accordance with the Code of Conduct.

EXISTING POLICY

ROSLYN PUBLIC SCHOOLS

POLICY #5220

STUDENT PUBLICATIONS

Students shall enjoy the constitutional right of freedom of expression. They shall have the right to express their views in speech, writing, or through any other medium or form, limited solely by those restrictions imposed on all citizens generally and those specifically applicable to children and youth in a school setting.

The Board of Education encourages student publications not only because they offer an educational activity through which students can gain experience in interviewing, reporting, creative writing, editing, photography, advertising, salesmanship, art, and understanding responsible journalism, but also because they provide an opportunity for students to express their views and a means of communicating within and without the school community.

All student publications will comply with the rules for responsible journalism. These include checking and verifying all facts and verifying the accuracy of all quotations. There should also be a review of material to improve sentence structure, grammar, spelling, and punctuation. Libelous statements, unfounded charges and accusations, obscenity, false statements, materials advocating racial or religious prejudice, materials advocating prejudice based upon an individual's sexual orientation, hatred, violence, the breaking of laws and school regulations, or materials designed to disrupt the educational process will not be permitted. Expressions of personal opinion must be clearly identified as such, and bear the name of the author. Opportunity for the expression of opinions differing from those of the student publishers must be provided.

POLICY #5220

In addition, student newspapers and/or publications which are paid for by the school district and/or produced under the direction of a teacher as part of the school curriculum are not considered a public forum. In such cases, the Board reserves the right to edit or delete such student speech which it feels is inconsistent with the district's basic educational mission.

Distribution of Literature

Students have a right to distribute literature on school grounds and in school buildings provided such distribution does not interfere with or disrupt the educational process. No literature may be distributed unless a copy is submitted in advance to the Superintendent of Schools. The Board reserves the right to specify the time, place and manner of permitted distribution.

REGULATION #5220-R

STUDENT PUBLICATIONS REGULATION

Authority

The Building Principal or designee shall have the authority to monitor the distribution of materials as well as other forms of student verbal and written expression. He/She will give due consideration to the constitutionally protected right of freedom of expression, the maintenance of the normal operation of the school and its activities, the protection of persons and property, and the need to assist students in learning appropriate ways to exercise their rights.

Distribution of Written Material

Distribution of material means dissemination of ten or more copies of written material on school premises, or in a manner reasonably calculated to arrive on school premises.

"Material" is defined as photographic or printed, written, or otherwise produced or reproduced matter.

Students wishing to distribute material must request permission in advance from the Principal or designee. Such requests must be accompanied by a copy of the material(s) students wish to distribute. Authorization will generally be granted provided:

1. the material is written by students currently enrolled in the District;
2. the material is free from advertisements of cigarettes, liquor, illegal or illicit drugs, or drug paraphernalia;

REGULATION #5220-R

Page 2

3. the following disclaimer will be added to any school-related publication that contains advertisements: "The appearance of any advertisements in this publications in no way an endorsement by the Roslyn Public Schools of any of the products or services advertised herein."
4. the material is distributed as directed by the Principal or designee who will regulate time, place and manner of distribution; non-school sponsored publications have the same rights of distribution as official school publications; and
5. the material is free from the conditions cited below.

Conditions Which May Cause Verbal or Written Expression to be Restricted or Prohibited

Under the following conditions, written material as described above and other forms of written and verbal expression may be restricted or prohibited when expression is inappropriate to the maturity level of the students and:

1. *When there is evidence which reasonably supports a judgment that significant or substantial disruption of the normal operation for the school or injury or damage to persons or property may result.*

In order for verbal or written expression to be disruptive or hazardous, there must exist clear and specific facts upon which it would be reasonable to judge that a clear and present likelihood of an immediate and substantial disruption would result if the expression were allowed to occur. (See Policy 5311, Student Rights and Responsibilities.)

2. *When the expression is construed to be obscene.*

Obscene expressions are those which the average person, applying contemporary community standards, would find that such publication, taken as a whole, appeals to prurient interests; that it depicts or describes in a patently offensive way sexual conduct specifically defined by the applicable state law; or taken as a whole, it lacks serious literary, artistic, political, or scientific value.

3. *When the expression is considered libelous.*

The expression shall be considered libelous when it includes defamatory falsehoods about individuals. In order to be libelous, the defamatory falsehood must be made with actual malice; that is, with the knowledge that it is false or with reckless disregard of whether it is false or not.

4. *When the expression invades the privacy of other individuals.*

Invasion of privacy includes exploitation of an individual's personality providing information of an individual's private affairs with which the public has no legitimate concern, or wrongful intrusion into an individual's private activities in a manner that can cause mental suffering, shame, or humiliation to a person of ordinary sensibilities.

5. *When the expression criticizes school officials or advocates violation of school rules to the extent that there is evidence that supports a judgment that substantial disruption of the normal operation of the school will result (see 1).*

REGULATION #5220-R

Page 4

6. *When the expression attacks ethnic, religious, social, or handicapped groups; or females or males as a group; or promotes discrimination based upon an individual's sexual orientation; or promotes discrimination against said groups and there is substantial evidence indicating such expression will result in substantial disruption of normal school operation.*
7. *When the expression encourages actions which endanger the health and safety of students.*

Procedural Due Process

The Principal has three (3) school days to determine whether authorization to distribute the material will be granted. If the Principal decides to withhold authorization, the Principal must state the reasons in writing and provide the students with a copy of the reasons.

The aggrieved student(s) may within five (5) school days appeal in writing the decision to the Superintendent of Schools, who must issue a written decision within five (5) school days after receiving the appeal.

If the student(s) request a personal hearing with the Superintendent to present their views, the hearing must be held within five (5) school days of the request, and a written decision must follow the hearing within five (5) school days.

If the concern is not resolved to the satisfaction of the student(s) at the Superintendent level, the student(s) may appeal to the Board of Education, who will hear the appeal at the next regularly scheduled meeting provided the appeal has been received at least two (2) days prior to the meeting.

POLICY 5280

Intramural and Interscholastic Athletics

REVISED POLICY

Policies Being Replaced	Policy 5270 Intramurals Policy 5280 Interscholastic Athletics
Reason for Revision	(1) Consolidate existing policy statements into one policy (2) Updating substance of policy to reflect current practice and law

-DRAFT REVISED POLICY-**ROSLYN UNION FREE SCHOOL DISTRICT****INTRAMURAL AND INTERSCHOLASTIC ATHLETICS****POLICY 5280**

Intramural and interscholastic athletics for boys and girls is an integral and desirable part of the School District's secondary school educational program. Interscholastic teams provide the opportunity for interested students to compete with other schools.

Individual and team sports shall be based upon comprehensive physical education instruction and intramural activities, seeking broad participation from all eligible secondary students. Lifetime or carry-over sports are to be particularly encouraged and supported.

The purpose of the intramural and interscholastic activities sponsored by the School District is to develop sportsmanship, competitive spirit and school spirit. The benefit to physical health from participating in athletic activities is not overlooked. All students are eligible to participate to intramural/interscholastic activities provided the student complies with established guidelines for eligibility and does not violate the School District's Code of Conduct.

The Board of Education recognizes the importance of well-rounded intramural/interscholastic activities for both boys and girls.

Medical Supervision Student Injuries

All interscholastic sports will have someone trained in first aid, CPR and AED available. Football games, either at home or away, will not be allowed to commence unless medical personnel are present. "Medical personnel" are defined as physicians, paramedics, emergency medical technicians, or certified athletics trainers, in that order, will be accepted.

Although the School District will take reasonable care to protect student athletes, students may still sustain injuries. In order to most effectively ensure student safety, open communication between students, parents and coaches about the child's medical condition is critical. Coaches, and other appropriate staff, will receive guidance and training regarding recognition of injury and removal of the student athlete from play in the event of injury. Parents and/or students are expected to report injuries so that student health can be protected.

Health Appraisals for Interscholastic Athletics

Before participating in any aspect of interscholastic athletics, students must meet the following criteria:

- The student must submit to a complete physical examination by the school's chief medical officer or from the student's family doctor, physician assistant, or nurse practitioner. No student may participate in an interscholastic activity until the school's chief medical officer or the student's family doctor, physician assistant, or nurse practitioner examines the student and approves/certifies that the student is physically fit and able to participate in said activity.

-DRAFT REVISED POLICY-**ROSLYN UNION FREE SCHOOL DISTRICT****INTRAMURAL AND INTERSCHOLASTIC ATHLETICS****POLICY 5280**

- The student must submit written permission, signed by a parent/guardian, consenting to the student's participation in the interscholastic activity.
- The student must comply with all New York State and §VIII guidelines governing participation in interscholastic athletics.
- Health appraisals of students before participation in interscholastic athletics are performed for two reasons:
 - To provide for the health and well-being of athletics.
 - To identify health problems which may preclude safe and effective participation in accordance with New York State and §VIII guidelines.

The School District may require a student to be re-examined and re-certified by the student's chief medical officer or the student's family doctor, physician assistant, or nurse practitioner:

- Where a student has suffered an injury, depending on extent of the injury.
- Where a student has been absent from school due to illness, depending on the nature of the illness.
- Where the student exhibits a suspected medical condition.

The need for re-certification will be assessed on a case by case basis in conjunction with school health personnel and the private health care provider, if appropriate. However, the final decision as to whether the student may be re-certified must be made by the school's chief medical officer.

Intramural/Interscholastic athletics for boys and girls are a valued and desirable part of the educational program. The Board of Education has statutory authority to set academic standards and standards of conduct as a prerequisite for eligibility for participation in intramural/interscholastic sports.

The Board of Education recognizes that student athletes have the obligation to act in a responsible manner because of the leadership role they play in the school environment.

Student eligibility for participation in intramural/interscholastic athletics will include the following:

1. Compliance with the Code of Conduct;
2. Written consent by parent or guardian, where indicated.
3. Compliance with league, State Education Department regulations and requirements set by the Superintendent of School or his/her designee.
4. Maintaining a passing average/minimum GPA and not having two failing grades, except in extenuating circumstances where approved by the Superintendent of Schools or his/her designee. Authorization by the school physician.
